AN INFAMOUS LIBEL.

The Los Angeles Herald fears that the arrangement to make cheap immigrant fares via the Southern Pacific route, will be the means of bringing a large population of Italians from Sicily, owing to the establishment of a line of steamers from Palermo to New Orleans, and declares that they are the very worst representatives of the Italian people, and less desirable than the Chinese, owing to their idle and dissolute habits. Even the worst Italians are incomparably superior in every respect to the best of the Chinese. The Boston Advertiser takes almost the same ground as the Los Angeles paper, saying "the Chinese never will affiliate with the predominant religious faith of the country, nor will the Italians. As is well understood, their allegiance is due to a foreign ecclesiastical power. Why then does not some patriot, like Mr. Page, author of sundry anti-Chinese bills, rise in Congress in his might and offer a prohibitory measure aimed at these non-assimilating Italians, arriving at the rate of four thousand a month. Material, moral and religious arguments are thus within reach." All of which is the veriest kind of bosh. The Chinese are an unendurable curse. The Italians, as a rule, make as good citizens as any class "of the most favored nations." They are peaceable, industrious and law-abiding, and contribute to the general welfare and prosperity of the country. Among the Italians in this country are some of our best farmers and taxpayers. The successful manner in which they cultivate the land, furnishes a good example to many who boast of being citizens otherwise than by adoption. To compare Chinamen with Italians is the grossest kind of insult. We are not surprised that a Boston paper could be guilty of it, but for the editor of a California paper to even insinuate anything of the kind only stamps him a fool.

Cannon and Campbell "Bounced."

In the House of Representatives Wednesday a vote was taken on the resolution of the minority of the Elections Committee, declaring Cannon elected to his seat. The resolution was rejected—ayes, 79; nays, 123. This was a party vote with the exception of Belz-hover, Colquitt, Cobb, Cassidy, Holl-man, Mosgrove, Murph, Rice (Mo.), Marston and Turner (Ky.), who voted in the negative with the Republicans, and Campbell (Pa.), in the affirmative with the Democrats. The majority resolution, declaring neither Cannon nor Campbell entitled to his seat was adopted without division.

An Infernal Machine in Eggs.

Numerous arrests of suspected nihil-ists are occurring throughout Russia, and the machinations of the discontented, instead of becoming less numerous, seem to be continually increasing and becoming more manifest. The other day a basket of eggs was sent as a present to the Prefect of Police of St. Petersburg. Some suspicion was aroused, and the eggs were carefully examined, and were found to have been emptied of their natural contents and charged with dynamite, the orifice being closed carefully.

Here we are again in free America, aping the customs of the effete monarchies of Europe. At the Parrott-Donohue wedding in San Francisco a special benediction was received from the Pope. The marriage service of the Catholic Church was celebrated according to the forms used in the case of the marriage of the crowned heads of Europe.

Eureka has elected the following gentlemen delegates to the Anti-Chinese Convention: Gen. P. E. Connor, Dr. A. C. Bishop, J. V. B. Perry, Capt. A. D. Rock, C. G. Hubbard and Grif J. Griffith.

Judge Jere S. Black delivered the oration at the Gratian centennial in Baltimore night before last. He held that America has been insulted by England's late conduct.

Page has very carefully canvassed the Senate upon the chances for the final passage of his Chinese bill, and is certain it will go through just as it came from the House.

It has been decided to send the Iron-quois, now at Mare Island, to the relief of the officers and crew of the Rodgers, barned in the Arctic.

The jury returned a verdict of not guilty on the ground of insanity in the case of McLean, who fired at the Queen.

It is said that another big strike has been made in the Cantonment mine, Safford District.

NEWS NOTES.

During March 531 Irish outrages were reported. Smallpox and yellow fever are prevailing at Panama.

The Lick House yields the Lick estate \$2,700 per month. By its new gas contract San Francisco will save \$1,000 per day.

Despite Guiteau's repudiation Seville will continue in the case. Dr. Lamson's friends hope that the plea of insanity may enable him to escape the death sentence.

The United States exploring ship Rodgers has been sunk off Cape Serdiz; the officers and crew escaped. "Colorado Charlie," a scout, who wears his hair a la Oscar Wilde, is the latest at the Palace Hotel, San Francisco.

John R. Glascock, Esq., of Oakland, who was the Democratic nominee for Congress in the Second District at the last Congressional election, will be a candidate for Congressman at large before the California Democratic State Convention, which meets in June.

Expenses of Garfield's Illness.

The House Committee to audit the expenses of President Garfield's illness, on Wednesday made a report, which was referred to the Committee of the Whole. It allows Mrs. Garfield \$50,000, less any amount the President had received for salary; Bliss, \$35,000; Agnew, \$15,000; Hamilton, \$15,000; Keyburn, \$10,000; Mrs. Edson, \$10,000; Crump, \$3,000; Secretary of the Navy, \$1,882; Undertaker Spear, \$1,835; O. N. Jones, of Elberton, \$1,082, and other amounts varying from fifty cents to \$1,000. It retires Barnes with the rank of Major General, and authorizes the promotion of Woodward to the rank and pay of a Lieutenant Colonel. Blackburn and Springer, in a minority report, do not object to the payment for services, but oppose the exorbitant figures set. They say the amounts paid should come from the unpaid salary of Garfield. The amounts named are far beyond what would have been earned by ordinary salary. There was no extraordinary skill in the case, and there should be no wanton or excessive expenditure. The minority also oppose the retirements and promotions recommended by the majority.

Arthur and His Cabinet.

The report that the President was dissatisfied with the conduct of the State Department by Frelinghuysen is authoritatively denied. Arthur is not disturbed by the criticisms in regard to the Irish-American suspects, and he believes the country will recognize the astuteness which accomplished without irritation all and more than excitement and bluster would have done. He is willing to be judged by results. There is no member of the Cabinet more firmly fixed than Frelinghuysen. A member of the Cabinet is authority for saying that the President said, on signing the recent commissions of Teller and Chandler, that he felt encouraged to think that he had now arranged his Cabinet to his entire satisfaction, and he hoped there would be no necessity for further change.

Blaine's Turn to Laugh.

A Washington special comments on the fact that the President, in his message on the Congress of American States Tuesday, took water, and really advised the step for which Frelinghuysen tardily replaced Blaine. The only difference is that Arthur places the responsibility on the Congress of the United States. Blaine is reported as much amused, but believes nothing will result from this peace conference, whether Congress takes action or not. He says the foreign nations which have already been invited once, and now that the matter is coming before Congress for approval, they will naturally say, "if it is approved perhaps the Supreme Court would like to pass upon the question. We had better wait before accepting." In other words, the whole proposition has passed into the domain of burlesque.

Not a Paying Enterprise.

It has been officially decided to discontinue the lightning express between Chicago and the East over the Pennsylvania and Lake Shore roads. The east bound fast train will be continued. Taking off the lightning train is understood to be one of the conditions of the recent pool contract of the trunk lines. It is said not to have paid expenses. The date has not been fixed. The west-bound lightning trains over the Pennsylvania and Lake Shore roads are in competition, while the east-bound fast train on the Pennsylvania road is not a competitive train, and will be continued.

The Richmond Company, Eureka, does not allow its miners to work on the Sabbath day.

There is a rumor that Haverly, the theatrical manager, is dead in London.

GOVERNOR TRITLE.

He Expresses His Determination to be Boss of Arizona.

In a recent interview with the editor of the Tucson Star, Governor Trittle of Arizona, expressed his determination to put down lawlessness in the Territory if the people would give him anything like a fair support in the undertaking. He said with truth that the state of affairs that have existed in Cochise county for some time past was a disgrace to civilization, and that the facts of the matter should be promptly laid before Congress and that body requested to appropriate sufficient funds to put down cattle stealing and smuggling. It was not a question of party or the success of party candidates with him; his ambition was to do his duty according to the letter and spirit of the law, and let the odium fall on whom it would. When he asked for power to suspend county officers he did it in no arbitrary spirit, but simply as an ax he could hold over the necks of officials in case of malfeasance in office. He said that if it was generally known that he was possessed of that power, county officers would be more careful in attending to their duty; but by the present loose arrangements county officials are practically their own bosses, and therefore do about as they please. The Governor expressed the belief that ruffianism was coming to a terminus, and that a few months more would see the most remote corners of Arizona as free from violence as her sister States and Territories.

Alaska's New Government.

The House Committee on Territories has directed Richardson to report favorably a bill providing for the organization of the Judicial District of Alaska, and the establishment thereof of a civil government. The bill provides for a Justice and three Associate Justices, and for a United States Marshal, who shall act as officers of the Government. It also provides for an extension to the Territory of Alaska of the land, timber and mining laws of Oregon, Nevada, California and Washington Territory.

A Queer Lot.

[S. F. Bulletin.]

There never was a queerer lot brought before the public eye than the Guiteau group. The assassin, since his condemnation, appears to be doing a thriving business in autographs and photographs. He also is deriving some income from a book. Probably he was never doing so well in his life as at present. If he had not to be hanged pretty soon he would most likely realize a fortune. He is drawing heavily on the mawkish sentimentality of the country. But his sister, as in part his heir at law, is afraid that he will not dispose of his gaiters wisely. She is accordingly moving in a Chicago Court to be appointed his guardian. It is reported that nothing has occurred for some time which has so much ruffled the assassin's temper as this movement. There was a proposition some time ago to sell his body, after the sentence of the law had been executed upon him, for exhibition all over the United States, in which his relatives appeared to take a very deep interest. Meanwhile brother-in-law Seville is lecturing about the country, but with very poor success. He appears to consider himself an injured individual because he defended Guiteau for what now appears to have been a rather small remuneration. There is talk that he is to apply to Congress to be paid by the nation for his services in defending the assassin who barbarously murdered the President of the United States. Neither Guiteau nor his counsel is willing to surrender the idea that there is a class of politicians who have prospered amazingly out of the most dastardly crime to be found in the annals of any nation.

HOPFUL.—It is said that Colonel Sine, Barnes will be on hand to superintend the Sweetwater boom. He is now in Eastern Nevada. The sagacious philosopher is satisfied that the Democrats have struck a kindly formation and will, during the next two years, make rapid headway toward the ledge—the U. S. Treasury, rather.—[Bodie Free Press.]

New Stock.
Mr. Winters has a fine two-year-old filly, Lou Spencer, by Norfolk from Ballerina, of which he has great expectations, she being already as tall as her stable companion, the Duchess of Norfolk. The filly by Norfolk from Ballerina is said to have been sold by him to A. Stember, who owns that fleet and game horse, Fred Collier. She is said to be very promising.

Norfolk's Promising Progeny.

The San Francisco Chronicle, noticing the horses in training for the approaching races at the Bay District track, says something about Norfolk's progeny, which is of local interest, because Theo. Winters is connected with the story. The Chronicle says: "The Palo Alto string is strong in the numbers of its youngsters, but it does not yet appear on paper that they will achieve any prominent position this season. The great representative of the farm is said to be a yearling by the Duke of Norfolk from Nova Zembla, a half-sister to the famous horse Luke Blackburn. He is a prince in appearance, and has already been put through his paces on a miniature track to the entire satisfaction of his trainer, who seems to think very favorably of adopting this same system of preparatory training that has proved to be so successful with the trotters Wildflower, Hindoo Rose and a host of other celebrities. His appearance, his gait and breeding are so exceptionally fine that he will probably bear the name of Palo Alto, and as Mr. Covey showed him to Mr. Winters he predicted that the colt would eclipse the proudest feats of his sire. Mr. Winters has always had great faith in Norfolk for good reasons, especially when bred by mares of sturdy descent. The Duke and Duchess of Norfolk are from Marian by Bonnie Scotland (the same horse sired Luke Blackburn), and they were both excellent performers on the turf, and the Duchess will probably capture all the principal three-year-old stakes this season unless she meets her peer in Forest King by Monday, dam Abbie W, or in Precious, by Lover, from Frolic. Norfolk is certainly the representative stallion of the coast, and his breeding and exploits deserve ample mention. He was foaled in 1861 and was probably the first son of Lexington from Novice, by Glencoe, granddam Chloe Anderson, by Rodolph. He was strongly inbred to Sir Archy and Diomed, the latter being the winner of the first English Derby that was also imported to this country. Norfolk won a national reputation in his three-year-old form, taking all the principal events, and he is credited with 5.27% and 5.29% in a race of three-mile heats, which is still the best on record. His best son was supposed to be Ralston, from Hennie Farrow, the dam of Mollie McCarty; but he was ruined in his early trials, and now Connor, from Ada C, and the Duke and Duchess of Norfolk, from Marian, are his finest representatives, all three being classed as fairly first-class performers. If the Palo Alto colt can indeed rival the speed and endurance of his sire, the famous stock farm may achieve as much success at the East as will the trotting horses, but Mr. Winters is doubtful of the matter, as indeed is also the writer. During last year's campaign there were eleven Norfolk's that started in thirty-eight races, winning fifteen, running second in twelve and third in eight contests, they winning in the aggregate close on \$8,000."

Skipped Out.

One Wilson, who arrived here from the East about two weeks ago, has managed to swindle some of our Reno folks. He started in to engage in the restaurant business, and upon various false representations got Jamison & Co. to trust him for \$50 worth of table linen, carpets, etc.; Knowles & Brunbridge credited him for \$75 worth of hardware, stoves, etc.; old man Hall provided him with \$140 worth of crockery and groceries, and Perkins furnished him with nearly \$50 worth of tables, etc.; Quinn and Needham also extended credit to \$20 and \$30. The restaurant called the Boston, was to commence business yesterday morning, but night before last Wilson sold it out to Jones, a former partner with Wilson's brother in the meat market on Virginia street. Since that time the scoundrel has not been seen in Reno, and the presumption is that he has gone back to the East. His brother, of the meat market, feels the disgrace keenly, and says he himself is also out and injured pecuniarily. A majority of the creditors yesterday attached the restaurant, and it is now in charge of Constable Avery.

Callender's Minstrels.

This excellent minstrel company will be here next Wednesday night. Of the company the Cheyenne Leader of the 15th instant says: "The best minstrel performance ever given in Cheyenne was that of last evening, by Callender's Georgia Minstrels. The acts were new, the antics original, while all through the entertainment there were novel incidents that enhanced the occasion. The vast audience—the hall was jammed full—was kept in an uproar of laughter during the entire evening."

The Lakeview Examiner says of the JOURNAL: "The Reno JOURNAL, one of the best papers in Nevada, has entered upon its seventeenth volume. May it live forever."

DECORATION DAY.

Circular From the Grand Army of the Republic.

HEADQUARTERS DEPARTMENT OF CAL., GRAND ARMY OF THE REPUBLIC. 320 SANBOME ST., SAN FRANCISCO, April, 15, 1882.

GENERAL ORDERS No. 4.

Under the rules of the National Encampment of the Grand Army of the Republic it will be the duty of every Post in this department, on the 30th day of May next, to participate in the decoration of the graves of soldiers and sailors who served in the "War of the Rebellion."

It is hereby ordered that the commanders of Posts will, as soon as possible, make the necessary arrangements for the observance of the day. As the 30th day of May has been declared a legal holiday in this State, there will be no interference with business, and all will be at liberty to assist. Let us remember that it is not simply that we strew flowers over the graves of individuals whose memory we desire to keep green, but that it is an offering of love we, as comrades, pay to our dead, and a tribute from a grateful people to that self-sacrificing patriotism which resulted in the perpetuity of our liberties and the integrity of the nation.

Therefore, whether there are graves of veterans to be decorated or not, it is desired that wherever in this department a Post of the G. A. R. is located, some fitting memorial service will be observed.

While these memorial exercises are under the auspices of the Grand Army of the Republic, it is no less the duty of all to unite with the G. A. R. in the observance of the day, and all organized bodies, military and civic, are invited to join with the G. A. R. in making the observance universal.

As the years roll by our labors on this day become increased, and our roll of honor shows added names on each anniversary of this day of grateful offerings, and as our numbers become less, let our devotion to the memories of the past grow stronger, and our loyalty to our dead never grow cold.

Clergymen in the different localities are respectfully requested to conduct appropriate service in their respective churches on Sabbath preceding 30th of May, and the press are requested to give the day and its duties notice in their columns. By command of

W. A. ROBINSON, Department Commander. Geo. M. McCARTHY, Assistant Adjutant General.

A False Alarm.

Yesterday afternoon Jas. Wilson excitedly called for Dr. Dawson and Dr. Lewis to go to his house, down near the Refrigerator yard, and save his wife, stating that she had taken a bottle of strychnine from his pocket, and had swallowed the contents with suicidal intent, and all because he had done something which did not please her. The man was in earnest, and the tears stood in his eyes as he told his story to the doctors and a JOURNAL reporter. They went to the house, found the broken bottle, but, upon examination, found that the woman had deceived her husband, although she insisted she had taken the poison. The doctors gave her an emetic and returned to town.

Items of Interest to the Postoffice Department.

These two little notes are clipped from Wednesday's Truckee Republican: "In consequence of the impassable condition of the roads between Truckee and Sierra Valley, the merchants of Loyalton and Sierraville are compelled to ship their freight in by the way of Reno."

G. Q. Buxton and Herbert Nicholls arrived from Sierraville last night. The snow was so soft they were compelled to come around by the way of Reno.

And this one is from the last issue of the Lakeview Examiner:

Surprise Valley people have a right to "buck." The Postoffice Department has rescinded the order for a daily mail between Reno and Willow Ranch, and announces that the contract will be let for a weekly mail between those points.

San Francisco Meat Market.

The market is quieter than it has been of late. Slaughterers rates are as follows:

Beef—Prime, 8 1/2 @ 9c; medium grades 5 1/2 @ 7c @ 8c.
Veal—Large Calves, 8c; small ones, 8 @ 10c @ 11c.
Mutton—Wethers are quotable at 6 @ 6 1/2c and Ewes 5 @ 5 1/2c @ 6c, according to quality.
Lamb—Quotable at 7 1/2 @ 10c @ 11c.
Pork—Live Hogs, 6 1/2 @ 7c for hard, and 5 1/2c to 6 1/4c for soft; stock, 4 1/2 @ 5c; dressed do, 8 1/2 @ 9 1/2c @ 10c for hard grain Hogs.

THE UNION MINE.—Nothing of an exciting nature is expected from the north end for some time, as it will require several days to run the northeast drift on the 2600 level to the point where the ore body is expected to be cut. On the 2700 level the explorations have not resulted as well as was hoped. The drift which was expected to strike the continuation of the 2500 ore body on the 2700 has passed far beyond the point indicated by the surveys. There is an opinion that if the 2500 ore body continues to the 2700 it will be struck in Sierra Nevada.—[Chronicle 20th.
